JOHN F. TINGLEY
PRESIDENT

September 18, 1942

Joley 3-4474

Dear Professor Melder:

I have your letter of September 16th in regard to using our facilities at the Park for the storage of rowing shells.

I note that you have been instrumental also in developing interest along this line at Leicester Junior College. I received a letter from Mr. Tiffany the other day asking for the privilege of storing their shells at the Park and I wrote him giving permission.

I will be glad to extend the same privilege to your boys at Clark. I presume they use the same shells, and I am so notifying the caretaker.

Yours very sincerely,

John F. Tingley

F. E. Melder
