My dear Professor Melder:-

I am in receipt of yours of the 13th regarding the possibility of some college boys using the Quinsigamond Boat Club for rowing.

Under other conditions we should be very glad to accommodate you, but we have recently rebuilt the boat house so that there is now no place for shells. It is entirely a bath house. The increasing age of the members of the Quinsigamond Boat Club precluded rowing and so we changed over the boat house last year.

I am sorry we cannot be of help to you.

Yours very sincerely,
