Crompton & Knowles Employees Association

We the undersigned, members of the Clark University Rowing Club, wish to express our appreciation for the generosity of your association in permitting us to use your club bathhouse and beach for carrying on the sport of rowing during the past season. We have enjoyed the facilities and the use of Coes Pond and feel that it has been a definite benefit in carrying on our physical training as required by the United States Navy Reserve. We hope that your association has not been disturbed in its use of the bathhouse by our activities and that we may have the opportunity to use them again in the future.

Cordially yours,
