

HAGERTY

June 15, 1945

Mr. Rudolph F. Nunnemacher
Rowing Coach
Clark University
Worcester, Mass.

Dear Sir:

I am sorry to have delayed until now to contact you but the pressure of the Navy for radar equipment in the past few months has been terrific.

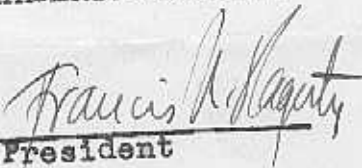

When things are again normal, I would like nothing better than to speak before your group and tell them what little I know about rowing.

I am still thinking about you in regard to second-hand boats and am in hopes of starting our shell and car production in September.

If you have an opportunity to get down this way this summer, it would be swell to see you.

Very truly yours,

HAGERTY COMPANY

President
