

September 11, 1945

Mr John F. Tinsley  
Crompton and Knowles Loom Works  
Worcester, Mass.

Dear Mr Tinsley,

Because of your kindheartedness, the Clark Rowing Club has enjoyed a very good year of rowing. While there have been relatively few boys engaged in the sport in the last few years, our coeds have become very enthusiastic and almost every good day there has been a crew out on the pond practicing for the spring regatta. This year our girl's Varsity defeated a Radcliffe crew, but the freshman girls and boys crews lost to North High School. Thanks to your and Mr Foley's kindness we were able to give our guests at your bathhouse a very jolly afternoon.

During the last year we acquired a second eight-oared shell so that now we can hold races in both fours and eights on Coe's Pond. With the collection of boats we now own the section of the bathhouse which you have loaned to us in the past years is now pretty completely filled and used to fullest advantage.

I earnestly hope that you will again allow the Clark Rowing Club to use your facilities at the Crompton and Knowles Park for another year and in doing so accept the thanks of the Club members and the University.

Most sincerely,

Rudolph F. Nunnemacher  
Rowing Coach

JOHN F. TINSLEY  
PRESIDENT

September 12, 1945

Dear Prof. Nunnemacher:

I have your letter of September 11. We shall be glad to extend to your Rowing Club the use of our facilities at Knowles Recreation Park for another year.

Sincerely yours,

  
President

HH
