OARS
AND
SCULLS

Dear Mr. Tuinnemacher:-

April 17th 1945

I am marking the seat-wheels you ordered by this same mail. Regarding the new equipment, we have some on hand but not many they are all first-class oars and the cost is 21⁰⁰ per oar. We will be making some eight's next winter and we are going to try and make them for the same price as we always did say 12.50⁰⁰. This in the molded ply too such a boat should last indefinitely without giving any trouble.

I thank you and hoping to be of further service to you.

Sincerely yours
George Pockock
