Dear Mr. Nunnemacher /

43045

I received your letter just as soon as I got home. Our car business closed down for the duration two years ago, I am finishing up some of the stock we had left, In the barn at my private home in my spare time, I am working in a War plant where you get me this money. It was hard to get proper compensation with you three, I have your racing sculls finished but was unable to get them back crating up to night. Will have them crated ready to be shipped on Wednesday. The ship costs us for crating I will send them collect I had only a few pairs of sculls left. If you are in need

how long it will be before there will be any more
I am afraid a long time. If you have a crew
rowing and need oars I would advise you get these

will soon be snuffed up quick. I hope the sculls

say I could not get them tomorrow. I do not
get home until 6 15 of a night. Wish you
my success with your crew.

Very truly yours
