

Hopedale April 26 - 1955

Dear Dr. Welder:

I just received your letter and record of the Rowing Club. I did not think it might be such a lengthy article so I feel really ashamed to have put you to so much trouble. But still I am glad now that I have the paper.

Herbert did say it in much fewer words when he came home.

Quote "Gee we made it"

Please let me say the present crew is a very fine crew. Every whit as good as Brown.

I am very proud to see Herbert's

warm on the new shell.

I also wish to thank the Crew
for the lovely carriage they sent
for the christening of the shell.

Thanking you sincerely
for granting me the favour
I asked for I beg to remain

Cardially yours
Lena Lubbe
