Ref: 22nd June, 1957.

Dear Mr Melder,

I must apologise for not having answered your enquiry about rowing machines sooner, but I have been trying to find out without success if there are any manufacturers in this country, and as I can get no information it appears that there are not. All our Clubs use tanks with a pontoon rigged in the usual way, and perforated, specially constructed oars. For instruction without water they mostly construct their own indoor equipment, and there seems no regular commercial supplier. I am sorry not to be able to help.

Many thanks for your good wishes, which I should like to reciprocate.

Yours sincerely,

J.H. Page
