

Dear Gene: -

Nov 18th '58

Your welcome letter arrived. Things must be happening, rowing wise & congratulations for your tenacity. Many would have chucked it up long ago. Yes we can have an eight for you by next spring and will try hard to get it in the multi-shipped car going to Boston. It cuts the transportation cost in half.

The price is 1800⁰⁰ Seattle and transport would be about 225⁰⁰ or 250⁰⁰ may be less, it's according to how many boats we can send.

I would recommend the fiberglassed Skew inside and out. This has taken the place of the double skew boat as we have abandoned the double skew. The fiberglassed job inside and out is better. I think this is all, except

You do not - have to pay anything
on account, wait - until we get - the
boat - done.

It. was nice to hear from you ^{come}
apart. from the boat.

With kind regard

Sincerely
George.

Terms same as Sep 24 1957.
order must. be official by A.D.
