

The Guy Burnham Index was first produced in June 1964 by then director of the Graduate School of Geography, Raymond Murphy. We have continued to keep this record updated as accurately as possible. We update this document and post it to the web twice per year summer and mid-year of the academic year. We have kept the original forward written by Prof. Murphy with the history of the making of the Burnham Index.

## FOREWORD

On June 7, 1964, Clark University awarded its three hundred seventy-second M.A. in geography and its one hundred ninety-second Ph.D. Where are these five hundred and sixty-four graduates now? Just when did they get their degrees? And what were the subjects of their theses and dissertations? Details for Our First Twenty-Five Years are available from the well-known bulletin of that name issued by former President Atwood, and most of the more recent names and addresses can be dug out of the Clark University Alumni Directory. But that's doing it the hard way.

We believed that it would be worthwhile to bring together the names and addresses of all M.A. and Ph.D. recipients, along with a listing of their thesis and dissertation topics. That is what we have done in this document. The information is presented through June, 1964, in as full and accurate form as we could make it. We regret that we could not include the names and current addresses of many other students in the Graduate School of Geography but did not complete the degree requirements. They are among our loyal alumni; but to have included them would have required many additional hours of going over records.

Several of us labored on the preliminary work of bringing the material together. However, the major contribution was made by Guy Burnham, who spent many hours checking the list for accuracy. Guy has been involved in other respects, too. He, himself, is one of our earliest alumni: he received his M.A. in 1922. For many years he has ridden herd over the denizens of the workroom. He has been their teacher, advisor, and friend, as well as a valuable member of the staff and a loyal supporter of the school.

We dedicate this index to Guy to express our gratitude in a small way, and to tell him that he will be sorely missed.

Raymond E. Murphy, Director  
December, 1964
