

Course Planning Worksheet

Name: _____

To make the most of your time with your major advisor, it can be helpful to sketch out the classes you have taken and/or plan to take by semester. This is especially important if you plan to study abroad. Your faculty major may notice classes you have taken that could count towards the major. By seeing your grades, he or she will learn more about your academic strengths and weaknesses and can help you better with your future course selection.

| First year, 1 st semester | | | |
|--------------------------------------|--------|-----------|-------|
| Course | Number | Taught by | Grade |
