NEWS RELEASE

October 22, 2009

Clark University's Graduate Management Center moving to Southborough

WORCESTER, MA— Clark University's Graduate Management Center, the satellite campus of the Graduate School of Management (GSOM), will be relocating to 333 Turnpike Road (Route 9) in Southborough effective January 2010. The new facility, located near I-495, is three miles west of the previous location, 1671 Worcester Road in Framingham, where Clark has operated since January 2000.

The Southborough campus has four new classrooms, a seminar room, a cyber café, ample parking and convenient access. (Learn more about the facility online at www.clarku.edu/southborough)

“Our new location provides the teaching and learning environment that students should expect in a first-rate, internationally-accredited MBA program like Clark's,” said Edward J. Ottensmeyer, GSOM's Dean.

“Offering an Evening MBA program in Metro-west is a top priority for all of us at Clark and GSOM,” said Dean Ottensmeyer. “And, we're excited about the opportunities and possibilities offered by our new Southborough home, given its proximity to so many world-class and fast growing businesses.”

An Open House for prospective students will be scheduled in January.

Accredited by AACSB-International, Clark's Graduate School of Management (GSOM) is a globally-focused business school offering a full-time and evening MBA program, plus full-time MS in Finance and BA programs. The school draws its nearly 500 graduate students from over 30 countries and the region's leading business firms, such as Fidelity Investments, EMC, BOSE, Genzyme and Staples.

Clark University is a private, co-educational liberal-arts research university with more than 2,200 undergraduate and 900 graduate students. Since its founding in 1887 as the first all-graduate school in the United States, Clark has challenged convention with innovative programs such as the [International Studies Stream](#), the [Strassler Family Center for Holocaust and Genocide Studies](#)

and the [accelerated BA/MA programs](#) with the fifth year tuition-free for eligible students. The University is featured in Loren Pope's book, "Colleges That Change Lives."
