

HAZARDOUS WASTE SATELLITE ACCUMULATION AREA

GUIDELINES:

- Containers must be marked with the words “**Hazardous Waste**”, **contents**, and its characteristic identifier (**Ignitable, Corrosive, Reactive, Toxic**). Use permanent labels and permanent markers when labeling.
- Keep containers capped except when waste is being added
- Do not overfill containers
- Keep containers inside secondary containment at all times (dishpan)
- Waste must be segregated into different categories. Make sure you add waste into the proper type .
- As soon as a container is full, it must be brought to the stockroom for disposition within 3 days.

For questions please contact Frank Abell, Chemical safety Officer, Room # J108
