Introduction to the Major

The marketing major nurtures innovative and socially responsible professionals and prepares students for success in a wide range of careers.

In the School of Management (SOM), don't expect business as usual. As you gain a foundation in all aspects of business, you will be challenged to consider triple bottom lines, social responsibility, and ethical impacts on people and communities. The marketing major trains students in the principles and practices of marketing and communications while also providing an in-depth understanding of consumer behavior, public relations, and marketing strategy and research.

CORE COURSES

All undergraduates in SOM complete core courses in accounting, management, information systems, organizational behavior, finance, and marketing. Students then dive deeper into marketing with electives in branding, entrepreneurship, movement-building, and digital marketing. All SOM majors complete a strategy capstone in their senior year.

- Prerequisite: Economics and the World Economy
- Three marketing core courses
- Seven business core courses
- One upper-level marketing elective
- Capstone course: Applying the Art and Science of Management
