2. If you wish to have any courses evaluated for major credit, write “yes” in the column marked “MAJOR WAIVER Request” and first submit this form and the attached course descriptions to the Chair of your department for approval. CLARK UNIVERSITY TRANSFER CREDIT POLICY – USE BLUE OR BLACK INK PEN ONLY – NONERASEABLE

The transfer of credit from another accredited college or university is generally allowed, providing the student will meet residency requirements and obtains prior written permission from Academic Advising.

- (1) Students who have matriculated without advanced standing for previous transfer credit may earn a maximum of 12.00 units of external credits. Transfer and advanced placement credits earned prior to matriculating at Clark can combine with external credits after matriculation to a total of 16.00 units.
- (2) Students who take a leave of absence to do course work at another institution may transfer no more than 4.00 units per semester or 8.00 units per academic year upon return to Clark.
- (3) Students must be enrolled full-time at Clark for both semesters of their senior year.
- (4) A maximum of 50% of major requirements may be fulfilled through external credits with permission of the department chairperson.

Non-Clark summer school credits are considered external credits and require prior, written permission from the Transfer Evaluation Committee. Summer school credit taken after matriculation at Clark is limited to 2.00 units per summer. While students are not limited in the total number of summer credits they may take over four years when making up deficiencies accumulated while enrolled at Clark University (e.g. W, WR, NC), only 4.00 units can be applied to acceleration toward graduation.

Transfer credits for online courses from other colleges/universities are evaluated on a case by case basis. Course syllabi required for evaluation of online courses.
PLEASE MARK: REQUESTING ONLINE COURSE(S) APPROVAL: YES NO

All external courses require a grade of C or higher to transfer. Non-graded courses (Pass/Fail) may not transfer unless the student can provide official documentation that the grade earned was a C or higher. **Grades do not transfer; only credits transfer.**

THE TRANSFER PROCESS

The transfer process involves three important considerations:

- (1) The educational quality of the institution from which credit is to be transferred; the institution must have regional accreditation.
- (2) The comparability of the nature, content, and level of credit earned at the other institution to that offered at Clark.
- (3) The appropriateness and applicability of the credit earned to the programs offered at Clark, especially, in light of the student's major program.

The amount of credit transferred is not on a course-by-course basis, but by calculation of the equivalent semester hour value of the credit earned at the other institution (e.g. 1 Clark unit = 4 semester hours).

Conversion of transfer credit into Clark units is sometimes complicated by the varying types of credit awarded by other institutions (quarter hours, course credits, units or points) which differ from Clark units. In all cases, equivalency to semester hours must first be established so that the regular formula (4 semester hours = 1 unit) can be used. Students are encouraged to submit their transfer evaluation forms to the Transfer Evaluation Committee early so that they can be assured of the exact amount of credit to be awarded in transfer.
