History Department Internship Stipend Program

About the Award: The History Department is able to offer up to three Clark undergraduates funds to support a summer internship in public history or in history fields beyond the academy. The internship must be unpaid, or paid so little that the student cannot undertake it. Each student will receive funds up to $5000.00. This award is open only to Clark history majors. History Department Internship Stipend Program

- How does this internship inform or prepare you for your larger educational and career goals?

2. Budget: A budget including personal expenses for the summer such as housing, food, and transportation.
   - The fellowship is not to make up for lost wages but to help students with an internship they could not otherwise afford to accept.
   - If the internship comes with funding, but that funding is insufficient, the student must explain why.
   - Be sure to consider the cost of living where you will living.
   - Please include all anticipated expenses, even if it goes above the award amount. Discuss how you will cover any difference in cost as part of your proposal.
   - Consider things like: expendable supplies, transportation, housing, utilities, professional clothing, gear and equipment, mileage and parking, internet access, laundry, and food.
   - Use the IRS' guide for mileage reimbursement (if applicable).
   - If you plan to live with a family member, and pay room and board to that family member, please estimate based on local reasonable rental prices rather than how much your family member might need or want (in other words, how much would you have paid if you were not living with a family member?)
   - This section should presented in table format.

A copy or screenshot of the internship offer:
The letter must specify the following: location of the internship, name of the supervisor, internship job description, start and end dates, the number of hours you will work (whether weekly or in total), and any assessment required by the program.
   - An email from the internship supervisor including the above information, along with a job description, is also acceptable.

Can I apply to more than one fellowship?
- Yes. However, if you are awarded funding through one Clark fellowship it is unlikely that you will receive funding through another in the same season, as it is our goal to award funding to as many students as possible.

How and when will funds be disbursed?
- Funds will usually be distributed in late May. Please plan accordingly.
- Award checks will be sent to the student’s campus mail box unless they have a refund address set up. You may elect to receive your award via direct deposit.
- You can set up or change a refund address (including direct deposit) through CUWeb: under Personal Information click Update Addresses, then Refund Address. If you currently have a refund address on file, the check will be sent there. If you do not set up a refund address, the check will go to your campus mail box.

**Tax Information**

**Domestic Students:** No taxes are withdrawn pre-disbursement; however, you will be expected to claim this award on your annual taxes and this may impact your taxes due at that time. Please consult an accountant for more detail.

**International students:**
- International students staying in the US for their internship will have some taxes deducted from their funding amount prior to receiving the funding; this means that the amount you receive will be less than the total award. The amount deducted depends on which country you are from, and the tax treaty that the US has with that country. Generally, expect about 12-15% of your total award withdrawn. Please see the Clark payroll office with specific questions about your tax amount.
- International students doing their internship outside the US will not have taxes withdrawn or reported.
