

Dean of Students CARE Team

What is the Dean of Students CARE Team

The Dean of Students CARE (Campus Assessment, Response, and Education) Team at Clark University is focused on creating sustainable systems of support that are accessible, inclusive, and equitable so students can thrive as they work to reach their full potential. Our collective goal is to provide wrap-around services to students that: increases their awareness of both local and campus resources, adds value to their experience, and enhances their sense of personal worth, belonging, and self-efficacy.

Through proactive outreach, educational initiatives, and intentional support, the Dean of Students CARE Team works to address obstacles or disruptions that have the potential to negatively impact student persistence and retention at the University, while simultaneously addressing systems that hinder student success.

We work with campus partners in a spirit of collaboration to provide students advocacy and outreach through student-centered outreach as well as intentional programming and initiatives.

The Dean of Students Office CARE Team works collaboratively to support students through intentional initiatives and direct outreach.

If we can be of any assistance to you now or in the future, please reach out and let us know how we can help. We are available via phone, email, or zoom meeting. You can schedule an appointment to meet with one of us via our Calendly links below. Your success is our number one priority and we want to help.
