

Health Insurance Marketplace Coverage Options and Your Health Coverage

General Information

With the key parts of the health care law that took effect in 2014, there is a new way to buy health insurance: **the Health Insurance Marketplace**. To assist you as you evaluate options for you and your family, this notice provides some basic information about the new Marketplace and employment-based health coverage offered by Clark University .

What is the Health Insurance Marketplace?

The Marketplace is designed to help you find health insurance that meets your needs and fits your budget. The Marketplace offers "one-stop shopping" to find and compare private health insurance options. You may also be eligible for a new kind of tax credit that lowers your monthly premium right away.

The Open Enrollment period is November 1st through December 15th of the year preceding the benefit plan year. Individuals may also qualify for Special Enrollment Periods outside of Open Enrollment if they experience certain events. (See [Special Enrollment Period](#) and [Qualifying Life Event](#)).

Can I Save Money on my Health Insurance Premiums in the Marketplace?

You may qualify to save money and lower your monthly premium, but only if your employer does not offer coverage, or offers coverage that doesn't meet certain standards. The savings on your premium that you're eligible for depends on your household income.

Does Employer Health Coverage Affect Eligibility for Premium Savings through the Marketplace?

Yes. If you have an offer of health coverage from your employer that meets certain standards, you may not be eligible for a tax credit through the Marketplace depending on the below factors and your household income. You may want to enroll in your employer's health plan. However, you may be eligible for a tax credit that lowers your monthly premium, or a reduction in certain cost-sharing if your employer does not offer coverage to you at all or does not offer coverage that meets certain standards. If the cost of a plan from your employer that would cover you (and not any other members of your family) is more than 9.61% of your household income for the 2022 year, or if the coverage your employer provides does not meet the "minimum value" standard set by the Affordable Care Act, you may be eligible for a tax credit. For tax years beginning 2021 and 2022, the American Rescue Plan Act (ARPA) removes the 100-400% of federal poverty level

ceiling and lowers the applicable percentage of household income to qualify for a tax credit to 8.5%.

Note: If you purchase a health plan through the Marketplace instead of accepting health coverage offered by your employer, then you may lose the employer contribution (if any) to the employer-offered coverage. Also, this employer contribution, as well as your employee contribution to employer-offered coverage, is often excluded from income for Federal and State income tax purposes. Your payments for coverage through the Marketplace are made on an after-tax basis.

- As your employer, we offer a health plan to: Eligible Employees.
- Eligible employees are: as defined in plan document .

- With respect to dependents: We do offer coverage to all eligible dependents. Eligible dependents are: as defined in plan document .

This coverage meets the minimum value standard, and the cost of this coverage to you is intended to be affordable, based on employee wages. *Even if your employer intends your coverage to be affordable, you may still be eligible for a premium discount through the Marketplace. The Marketplace will use your household income, along with other factors, to determine whether you may be eligible for a premium discount. If, for example, your wages vary from week to week (perhaps you are an hourly employee or you work on a commission basis), if you are newly employed mid-year, or if you have other income losses, you may still qualify for a premium discount. if you decide to shop for coverage in the Marketplace, HealthCare.gov will guide you through the process.

* An employer-sponsored health plan meets the "minimum value standard" if the plan's share of the total allowed benefit costs covered by the plan is no less than 60 percent of such costs.
